PROFILE

B.Tech Information Technology student with a strong interest in Data Analytics. I am passionate about transforming raw data into meaningful insights, creating visualizations and supporting data-driven decision making. Eager to learn, apply analytical and problem-solving skills in real-world scenarios.

TECHNICAL SKILLS

Data Analysis : Python, Pandas, NumPy, Excel, Power BI, Data Visualization
Web & Development : HTML, CSS, JavaScript, Jupyter Notebook
Database : SQL
Tools : VS Code, Git, Google Colab

PROJECTS

Foodpanda Data Analysis

- Analyzed food delivery data to find patterns, trends and business insights.
- Used Python, Pandas, Matplotlib and Seaborn for data analysis and visualization.

Project Management Dashboard

- Developed an interactive dashboard to manage tasks and track status.
- Implemented using HTML, CSS and JavaScript.

Micro-Blogging Application

- Built a simple web application to create, read and manage blog posts.
- Used HTML, CSS, JavaScript and Node.js for backend.

EDUCATION

B.Tech – Information Technology

Government College of Engineering, Trichy

CERTIFICATIONS & LEARNING

Master Course in Data Analytics – FITA Academy (In Progress)

- Python for Data Science
- Data Analysis
- SQL
- Data Visualization
- Excel
- Introduction to Machine Learning

STRENGTHS

- Quick Learner
- Problem Solving
- Team Collaboration
- Analytical Thinking
- Communication
- Adaptability
